**FAIR QUEEN** — Miss Gail Dunigan, being crowned by the first holder of the title, reigns today as Miss Neshoba County following her selection Monday night in Philadelphia. The 19-year-old beauty is the daughter of Mr. and Mrs. James Dunigan of Philadelphia. Crowning her was the former Miss Margaret Mason, of Houston, first to reign as "Miss Neshoba County."

## 'Miss Neshoba County' Title Won By Brownette Beauty Who Also Captured Crowd

PHILADELPHIA, Miss. — A brown-haired lass stole the thunder from this political cross-roads' Neshoba County Fair last night and walked off with the title of Miss Neshoba County, to the applause and cheers of the crowd.

Miss Gail Dunigan was crowned Miss Neshoba County by the first holder of the title, after she was selected as the judges' choice from among six contestants.

First alternate was Miss Pat Cooper, daughter of Mr. and Mrs. Richard Cooper, and second alternate was Miss Dixie Holley, 18-year-old daughter of Mr. and Mrs. Bill Holley.

Miss Dunigan was selected on swimsuit, talent and evening gown.

Miss Dunigan recited a dramatic poem as her talent entry. Miss Holley did a comedy routine about Columbus's discovery of America and Miss Cooper offered a dance routine.

The winner will represent Neshoba county in the 1968 Miss Mississippi contest.

More than 9,000 fair-goers

jammed the grandstands for the beauty pageant, which was emceed by Willard Hays and Buddy Johnson, and featured a number of talent acts in addition to the six contestants.

Other lovelies vying for the crown were Miss Paula Reynolds of Obediah, Miss Judy Conn, and Miss Joan Sharp.

The beauty contest followed closely upon the "official" opening of the fair, which got underway here Saturday and will continue through Friday night.

The official welcome to the annual event was given by Brown Williams of Jackson, president of the fair.

The purpose of this organization is to promote democracy on the campus by training women students in the practice and principles of self-government. The council members assist the Dean of Women and her associate in operating the residence halls in a manner that will promote the best interest of every student.

## Three ECJC Students Are Elected To State Offices

Three East Central Junior College students were recently elected to state offices; L. F. Jackson and Bettye Lewis were elected state vice-president and state secretary respectively of the state Methodist Student Movement, and Robert Smith was elected vice-president of the Student Mississippi Education Association. They will serve during the 1968-69 school year.

While in high school at Neshoba Central, L. F. Jackson was a member of the pep club, speech club, and FFA. He was a writer on the paper staff and a member of the annual staff. He served as president of his homeroom his senior year, and was elected as Most Courteous. While at Noxapater High School in the tenth grade, L. F. was selected by his fellow students as neatest boy. Here at ECJC, L. F. is president of the Wesley Foundation and is a member of the **Tom-Tom** staff. He is presently serving as youth director at First Methodist Church of Philadelphia. L. F. is planning to attend either Southern or LSU, and major in speech and English and is now a sophomore at ECJC.

Bettye Lewis' honors in high school

included her being Miss Walnut Grove High School, Campus Favorite, cutest girl, salutatorian of her senior class, and recipient of the American Legion citizenship award. While at WGHS, Bettye was secretary of the Beta Club, president of FHA, a member of the paper and annual staffs, a member of the basketball team, and a member of the Glee Club. She had parts in the junior and senior plays and is a member of the ECJC Players. She has served as president of the Meridian District MYF. Bettye is a member of Phi Theta Kappa, the Home Economics Club, and is attendance chairman of Wesley. After graduation from ECJC, Bettye will major in Home Economics at Southern and is now a freshman at ECJC.

Robert Smith, sophomore, mathematics major and president of ECJC SMEA, will lead the SMEA activities as vice-president during the coming year. In his speech to the SMEA delegation Robert outlined the qualifications of a leader — intelligence, integrity, inspiration, interest, initiative, interdependence, insight and invention. As vice-president of SMEA, Robert automatically became program chairman. Robert will carry out his duties next year at Mississippi State University; he succeeds Rebecca Thackston of MSCW, 1967-68 vice-president. Sandra Dickerson and Sue Evans served as publicity director and campaign manager respectively for Robert's campaign for this office.

Dear Mrs. Hull and Models:

You did an outstanding job modeling your stylish and well-made outfits at the district convention in Quitman last week.

All the club members present enjoyed this performance and I, as president, thank you so much for this part on our program. It helped to make the day a success. No woman's convention is complete without a style show.

Thank you again for the part you played on this special day.

Sincerely yours,

pared, useful citizens, we must do it ourselves. Furthering our education is one way of preparing ourselves.

More than ever, this country needs trained, educated people to continue the progress America has made and to take their rightful places in the society that is developing.

Much of the poverty and unemployment that exists today is directly related to the lack of education and preparation by previous generations. It is up to us to try to better the situation.

Right now there are two million young people who are from the ages of sixteen to twenty-one who dropped out of school before earning their high school diploma. Nearly a fourth of them are unemployed. Most of the rest are stuck in dead-end jobs, without any real future. They have little chance of promotion and will probably work for the minimum wage until retirement.

Large gains have been made in the fight against ignorance, unemployment and poverty during the past several years. The Secretary of Labor recently reported that two million more people are working and one million more are in high school and college than the population increase of the last three years accounts for.

The Education Campaign of the past two years has helped in this progress. It has paid big dividends by inspiring dropouts to return to school and finish their education. In 1960 the dropout rate was twenty-five per cent. Last year it had decreased to eighteen per cent.

But even this figure is too high. The fact remains that at the current dropout rate by 1975 there will be thirty-two million adults in the labor force without a high school education—thirty-two million who will be unqualified for the jobs available to them.

The Tom-Tom supports any campaign to keep students in school to prepare them for tomorrow. But it takes more than our support. It needs the support and effort of every citizen.

Young people who have a

## STUDENT

By Dan

Why do students come to college? Many people would like to know the answer: teachers with bored students, administrators when students overcut, and parents.

A sample survey was made and the answers settled into four main groups with a few sub-groups.

Most of the students said they were here to get a better education which would prepare them for better paying jobs. Some of these had worked for a while before deciding that the effort to finish college would be better than factory work for the rest of their life.

This better education was also expected to make them wellrounded individuals.

The girls, feeling the pressures of this world to be independent, wanted more education than high school so that they could help out with family income if the husbands were disabled.

College, to others, is the expected thing. You are supposed to go to college.

Most parents did not have the opportunity and know the importance it can make for a better life. Because some students fail to realize this for themselves, the parents insist on their attending college. Parental insistence isn't always the best motivation.

Surprisingly, to me, college, as an excuse to delay a trip overseas, was rarely given. Maybe that is given more publicity than needed.

College is also a place to stay when there's nothing else you want to do — like work or stay home.

# Plans Revealed For East Central

## 34th Annual May Day Celebration

East Central Junior College will observe its 34th annual May Day celebration on May 2 at 6:00. The origin of May Day is to be found in literature and legends of our European ancestors.

Truly the years are many between the origin of this folk custom and the May Day Celebration at East Central. With this celebration is continued a tradition that has survived for more than a quarter of a century on this campus. To continue that tradition here at East Central, many students will be a part of May Day, 1968.

The May Queen, Sybil Richardson of Morton, will be sitting in the spotlight during the gala event. The Queen will be attended by her court. The Bel Cantos, Nancy Riser, Ann Byas, Gloria Sanders, Linnie Dabbs, Peggy Hardin, and accompanist, Dianne Ray, will be dressed in white. The Men's Quartet, Don Wallace, Jerry Peagier, Jerry Nance, and Leslie Cowart, will be dressed in Blue and Red. Mrs. Ruth Hull, Mrs. Jessie Mae Everett, and Shelby Harris attended the Representative Assembly, Department of Classroom Teachers of the Mississippi Education Association in Jackson, January 14, 1967, at the King Edward Hotel.

The theme for the program was "Professional Unity, Our Commitment."

Approximately 300 teachers attended the assembly and adopted 15 resolutions. Although the teachers made no recommendations in salary schedules because the MEA is currently working on legislative proposals covering them, they showed great interest in improving the state's low salary rating in an effort to attract young teachers to jobs within the state. Salaries were discussed during the legislative committee report given by Miss Marguerite Jenkins of Meridian, who is chairman of the Department of Classroom Teachers.

New officers were elected for 1967-68.

**Junior Miss** is the 41st play produced on campus and is the 20th play produced here by Ovid Vickers, head of the English department.

When asked if he is planning to do more plays this school year, Mr. Vickers stated that the Players would try to do two. He also stated that one would definitely be **Glass Menagerie** by Tennessee Williams.

The play will be presented to the East Central students at no charge.

## Hull Elected Pres. Of Women's Club

Who said there would never be a woman president? Students of East Central Junior College, whether you know it or not, we have one in our midst.

Mrs. Ruth Hull, head of East Central's Home Economics Department, was recently chosen president-elect of the Decatur Woman's Progressive Club. She will be installed in May and will serve a term of two years.

Mrs. Hull is married to Cal Hull, Clarke County Superintendent of Education, and has one son who is a gynecologist in Jackson. And that's not all; she's the grandmother of two fine boys!

One of the surprising factors in Mrs. Hull's recent election is that her home is not in Decatur but in Quitman. There she and her husband teach in the adult Sunday School Department at the First Baptist Church.

Mrs. Hull has been a member of the Progressive Club from the time she began teaching here eleven years ago. Since then she has spent many hours working with the Decatur Club. For a number of years she was chairman of the annual style show held at East Central.

Besides being an active Progressive Club member, she has participated in numerous other activities. Mrs. Hull is also president of the XI Chapter of Delta Kappa Gamma (Teachers Honorary Society), past president of the Faculty Club, active member of the State Organization of Home Economics Teachers, sponsor of the Annual, and convention chairman for the District Two Convention to be held at East Central on March 27.

# Harris-Irons Engagement Told

UNION, Miss. — Miss Judi Harris and Richard L. Irons are planning to marry on June 9 in the First Baptist Church of Union.

The engagement is announced by her parents, Mr. and Mrs. Thomas Harris of Union. His parents are Mrs. Audine Irons of Union and the late Calvin Ladell Irons.

Grandparents of the bride-elect are Mr. and Mrs. Vesper Cleveland of Union and the late Mr. and Mrs. Rufus Harris of Decatur.

A graduate of Union High School, Miss Harris is now a freshman at East Central Junior College. At ECJC, she was elected as treasurer of the freshman class and chosen as a majorette for the college band.

DEL LAY of Newton has accomplished the impossible. When everyone told her that her newfound baby squirrels would die, she cared for them with so much devotion that they had to live.

Del found the four baby squirrels when they were about a day old. There had been a storm the night before, which had probably blown them from a tree. She answered the problem of feeding by using a doll's baby bottle. She diligently fed them six times a day.

They soon became individuals with distinguishable traits. Eeney is the only girl; Meeny, the smallest; Miney, the softest and prettiest; Moe is the largest.

The squirrels are all very tame and love to climb on people and sleep in pockets.

Del is now in the home economics curriculum, but at one time she wanted to be a veterinarian.

## Home Ec Dept. Gets Renovation

The Home Economics department at East Central is currently undergoing a complete renovation.

The clothing, dining, bath and foods rooms are being refinished and generally improved. Due to the great need for a face lifting in the Home Economics department, Dr. Charles V. Wright planned to renovation even though classes have started.

All walls, floors and furniture are being refinished. The home economics majors are waxing and refinishing much of the furniture themselves. Mr. Malcolm Jones, full time employee of the college, is doing the repair and renovating work.

The two basic colors for the department are off-white and muted tones of green. The sewing and foods rooms have been painted muted tones of green, while the dining, living and bath rooms are off-white. New drapes will be hung in both the living and dining rooms.

Mrs. Ruth Hull, head of the Home Economics department, and the home economics majors are anticipating completion of this renovation in the near future. When the work is finished, they are planning an open house for both the faculty and students.

Even though Mrs. Hull and the home economics majors will appreciate the improvements in their department; most of all, it makes all of us proud to know that another step has been taken for a bigger and better ECJC.

## DEFINITION OF A "HOME ECONOMIST"

### PURPOSE:

To delineate an official AHEA policy re whom AHEA recognizes as a "home economist."

### ACTION TO DATE:

The following definition, drawn up by the AHEA Accreditation Committee, was accepted unanimously by the AHEA Executive Committee on March 27, 1965. It represents the culmination of several years' work by national AHEA committees to meet the needs of the profession for an AHEA definition of "who is a home economist."

### FURTHER ACTION NEEDED:

The definition will require approval of the AHEA Assembly of Delegates before becoming official policy of the Association. A vote by the Assembly of Delegates will be taken June 1966.

### LIMITATIONS OF DEFINITION:

The definition is not envisioned as being enforceable, but rather as being an aid to the home economics professional in labeling herself, and an aid to AHEA in labeling members of the profession. The definition has no constitutional or legal status. It does not affect membership in AHEA.

### RELATIONSHIP TO AHEA MEMBERSHIP:

At the present time, there is no connection between the proposed definition of "who is a home economist" and criteria for membership in AHEA. Qualifications for AHEA membership will continue to be as at present, unless changes are proposed and voted upon through official AHEA channels.

## DEFINITION

A home economist is a college graduate who has studied in all of the following areas:\* family economics and home management, family relations and child development, foods and nutrition, housing, interiors and equipment, textiles and clothing. In addition, the home economist works professionally as an expert in one or more of these areas.

(SEE OVER FOR CONTINUED DEFINITION...)

---

\* The Term "studied" is meant to imply some scholarly acquaintance with the subject matter encompassed in these areas and the interrelationships among them. It is not intended to mean specific courses in each area.
